

COMPOSURE™ PRO

## STRESS CAN LEAD TO UNWANTED BEHAVIOR

**Pets are just as prone to stress as we are.** Just like humans can snap under pressure, our pets can crumble with the strain of what sometimes surrounds them.

But when pets get stressed, they don't act like themselves—instead, they bark, growl, howl, act destructively, and behave in other ways that are no fun for you or them.

It could be caused by your holiday guests. It could be the thunderstorm barreling through town. It could be a new animal in your home, or it may be just the day-to-day stress of being left alone. Whatever the cause of their fear or stress, **Composure™ Pro** can help your pets conquer it.

## GROUNDING IN RESEARCH BACKED BY SCIENCE DRIVEN BY RESULTS

At VetriScience® Laboratories, our mission is to provide veterinarians, pet owners and pets with solutions to the most common animal health concerns. Backed by science, and complementary to traditional therapies, our nutritional supplements use only the most pure and highly researched ingredients—developed by veterinarians for pets.

### **A Vermont-based company since 1972.**

As it was with the founders, our mission at VetriScience® and our parent company FoodScience® remains the same: *To provide exceptional and innovative supplements for the health and well-being of people and animals.*

- › Inappropriate elimination
- › Destructive behavior
- › Barking, growling and other aggressive behavior
- › Hiding
- › Restless behavior

**CLINICALLY SHOWN  
TO WORK WITHIN  
30 MINUTES\***

## HOW DOES IT WORK?

» Composure™ Pro is a synergistic combination of four active ingredients shown to support calm behavior during exposure to stress. It works to promote your cat or dog's calm response by addressing the functions of the brain that control nervous behavior and over-excitement—without causing drowsiness.

## PROVEN RESULTS

» Composure™ has been used by veterinarians and pet owners for over a decade. In addition, Composure™ has been clinically shown to work within 30 minutes and last up to 4 hours.\* It can be used daily or as needed, and is safe to double the dosage during times of heightened stress.

## MEET THE INGREDIENTS

- » Colostrum Calming Complex® Biopeptide Blend is a patented mixture of bioactive proteins with proven calming properties. This combination of proteins support your pet's calming response by normalizing the brain functions associated with excessive brain activity and over-excitement.
- » Suntheanine® brand L-Theanine is a patented ingredient that supports stress reduction and relaxation. Clinical trials have shown that Suntheanine® promotes calm behavior without negative side effects. Studies have indicated that it's effective in helping pets deal with environmentally induced stressors.
- » L-Tryptophan is an essential amino acid known for its role in the production of nervous system messengers, that support restfulness and normal sleep.
- » Lastly, B vitamins (thiamine) affect the central nervous system to help calm anxious animals.

**No matter how your pet reacts to stress, Composure™ Pro can help your cat or dog get through it.**
