

Survey Results: Diversity of Appearance, Summer 2020

There were 2 questions on poll #2 about diversity of appearance
Results below:

Question:

Do you support extending employment protection laws to address discrimination of people who are obese?

NOTE: This week students will investigate the extent to which people who are obese are protected through the ADA as well as laws in Michigan, several municipalities in California and in Washington D.C.

Question #2 features student thoughts on whether they would discriminate based on certain physical features.

NOTE: No student chose NOT hiring someone based on the applicant not being attractive enough – or being too short or tall. Additionally, no student felt they would need to limit exposure of an employee to clientele due to physical features.
